Top corners provide the stacking capability to boxes while supporting the box walls. Our Plastic Top Corner features a right angle and is available in two groove widths that accommodate varying board thicknesses. This Top Corner is perfect to use with plastic corrugated boxes in transportation and storage. Applications include turnover boxes, display cases, fruit & vegetable trays, component cartons, and more! Use Allen Field’s Top Corners to quickly add rigidity to your package! Customers who bought the 10mm corners also bought the 5mm corners.
